Hello SEMO HOGs,

Here we go again, another news letter. Boy, how time flies. I'd like to start off by thanking Mike and Presi Sams for the wonderful Mexican food that they prepared for our August meeting. It was GREAT. I'd like to thank Danny and Michelle Tumbleson for the food and discounts at our Sept. meeting down at Minors. They get two thumbs up. And another outstanding job by Larry Leeds and Jerry Hillis on smoking the meat and preparing it for us. Now, lets talk about Smitty and Randy Davis. What can I say about these two? Well, I couldn't say it out loud or even write it in here. All joking aside, thanks for another job well done on the picnic. You two guys are A's in my book. Also a big thanks to Bluff City Beer for their generous donation that paid for our picnic! They also provided some adult beverages for our enjoyment. Well, in ending this nightmare, I'd like to thank all the officers and welcome our new ones. I look forward to working with all of you in 2010. Remember, put some thing exciting between your legs, ride a Harley.

Steve Floyd

**A young man walked into our insurance office to purchase coverage for his new motorcycle. Only one question confused him. "Do you have a lien holder on the vehicle?"**

**"I've got a kickstand," the prospect replied. "Is that the same thing?"**

Dear Abby,

I've never written to you before, but I really need your advice on what could be a crucial decision.

I've suspected for some time now that my wife has been cheating on me. The usual signs...phone rings, but if I answer, the caller hangs up. My wife has been going out with the girls a lot recently, although when I ask their names she always says, "Just some friends from work, you don't know them."

I sometimes stay awake to look out for her cab coming home, but she always comes walking up the drive as I hear the sound of a car leaving, around the corner, as if she has gotten out and walked the rest of the way. Why? Maybe she wasn't in a taxi at all?

I once picked up her cell phone, just to see what time it was. This caused her to go completely berserk. She quickly snatched the phone out of my hand and cursed me hysterically, screaming that I should never touch her personal property, then accused me of trying to spy on her.

Anyway, I have never broached the subject with my wife. I think deep down I just didn't want to know the truth, but last night she went out again and I decided to really check on her. I decided I was going to park my Harley Davidson Lowrider next to the garage and then hide behind it so I could get a good view of the street around the corner when she came home. It was at that moment, crouching behind my motorcycle that I noticed a small amount of motor oil leaking through the gasket between the rear head and rocker arm cover.

So...is this something I can easily repair myself or do you think I should take it back to the dealer?
